

» Brackish Water / Process Water

Fajr Petrochemical Company

Bandar Imam Khomeini, Iran

Plant Information

- | | |
|---------------------|--|
| • APPLICATION | Process water for petrochemical industry |
| • PRETREATMENT | Clarifier › Sand Filter › Dual Media Filter › M/F |
| • PERMEATE CAPACITY | 93,700m ³ /day |
| • RO MEMBRANE TYPE | Brackish Water Membrane |
| • RO MEMBRANE MODEL | RE8040-BR, RE8040-BN |
| • RO SYSTEM ARRAY | 58:24 * 10 Block (+3 Block extension) (2 array, 5 elements per pressure vessel/6 elements per pressure vessel) |
| • OEM | VATEC Engineering |

General Information

This site is a central utility plant that produces process & drinking water for the petrochemical industry.
